NOTES
National Hotel and Restaurant Survey (NHRS) 2023/24 (2080 BS) Final Report published by the National Statistics Office, Government of Nepal. The survey covers accommodation and food service establishments across Nepal and uses fiscal year 2022/23 as the reference period. The final report was released in 2024/25 and provides national and provincial statistics on establishments, employment, income, expenditure, assets, and the economic contribution of the hospitality sector.

Overview

ABSTRACT
The National Hotel and Restaurant Survey 2023-2024 was conducted by the National Statistics Office to collect comprehensive information on the structure, operation, employment, income, expenditure and the other characteristics of hotels and restaurants in Nepal. The survey provides statistical information for policy formulation, planning, monitoring, and the evaluation of the hotel and restaurant sector and contributes to the compilation of national economic statistics.

KIND OF DATA
Sample survey data [ssd]

UNITS OF ANALYSIS
The hotel and restaurant survey could have the establishment as units of analysis.

Scope

NOTES
The scope of the National Hotel And Restaurant Survey includes :

- Number and type of hotel and restaurant establishments
- Employment and workforce characteristics
- Revenue, expenditure, and business performance
- Fixed assets and investment
- Capacity indicators (e.g., rooms, beds, seating capacity)
- Ownership and management structure

-Geographic distribution by province, district, and local level

KEYWORDS

Hotel, Restaurant, Establishment

Coverage

GEOGRAPHIC COVERAGE

National, Provincial

UNIVERSE

All registered and unregistered operating hotel and restaurant of Nepal within the reference period.

Sampling

Sampling Procedure

The frame of the survey was developed basically from the list of the National Economic Census (NEC) 2018. The list of establishments from NEC 2018 contains the complete name and address of establishments along with other variables such as annual income, annual expenditure, number of persons engaged etc. Before deciding sampling methodology, the nature and characteristics of NEC 2018 frame was reviewed and considered it as a main frame. Besides the main frame, the lists of currently running star hotels, resorts, hostels, homestay, catering and party palace were updated to the main-frame. Those lists were obtained from Department of tourism, Hotel Association of Nepal (HAN), Hostel Association, Homestay Federation, and from other associations. The entire updated list/frame was also adjusted during field work, which was the complete frame of the survey.

Deviations from Sample Design

No deviation

Response Rate

Not stated

Weighting

For small sized establishments (if number of persons engaged was less or equal to 9), sampling method was adopted. However, if number of establishments in each province at 3 digit NSIC level and person engaged category, was less than 30, then such establishments were completely enumerated to ensure their representation in the survey. Despite this consideration, if the number of establishments enumerated is less than the total number, weights are assigned accordingly.

Questionnaires

Overview

Single questionnaire was administered for the data collection. The questionnaire was initially drafted by Establishment Census and Survey Section of NSO and finalized with intensive discussion with stakeholders in different level (Federal and Provinces). The major stakeholders participated in discussion programs were government ministries, departments and private sectors such as Hotel Association of Nepal (HAN), Hotel Professional Federation Nepal (HPFN), Restaurant and Bar Association Nepal (REBAN), Hostel Association Nepal, Homestay Federation Nepal. The major areas covered by questionnaires are as follows. Contents of the questionnaire:

- Introductory information about establishments,
- Business information about establishments,
- Employment,
- Expenditure of the establishments
- Income of the establishments,
- Stocks,
- Information of fixed assets,
- Information on loan, source of loan, reasons for not taking loan, social security, management of garbage, corporate social responsibility (CSR), human/non-human accident and lose, and
- Factors affecting business environment of the establishment.

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

The data for the National Hotel and Restaurant Survey were collected through structured questionnaires administered to hotels, restaurants, lodges, resorts, guest houses, homestays, catering services, and other accommodation and food service establishments. Information was obtained through face-to-face interviews with owners, managers, or authorized representatives of the establishments.

The survey collected information on establishment characteristics, employment, wages and salaries, revenue, expenditure, assets, accommodation capacity, and other operational details. Both registered and unregistered establishments engaged in accommodation and food service activities were included within the survey scope.

Enumerators received training before fieldwork and followed standardized procedures to ensure consistency and accuracy of data collection. Supervisors regularly monitored field operations and conducted validation checks. Completed questionnaires were reviewed, coded, entered, and verified through data quality control procedures.

Supervision

NSO officials and survey supervisors regularly monitored enumerators, checked completed questionnaires, and verified data quality to ensure accurate and consistent data collection.

Data Processing

Data Editing

After the completion of field data collection, all questionnaires were subjected to a thorough editing process to ensure completeness, consistency, and accuracy. The editing involved checking questionnaires for missing information, logical inconsistencies, out-of-range values, and coding errors.

Supervisors reviewed the questionnaires before data entry. During data processing, computerized validation checks were applied to identify and correct errors, duplicate records, and inconsistencies. Where necessary, respondents were re-contacted to verify doubtful or incomplete information. Data were entered using CSPro software, Version 8.0.

Report of The National Hotel and Restaurant Survey 2023-25

Title	Report of The National Hotel and Restaurant Survey 2023-25
Author(s)	National Statistics Office
Date	2024-12-18
Country	Nepal
Language	English
Contributor(s)	Establishment Census and Survey Section, National Statistics Office (NSO)
Publisher(s)	National Statistics Office (NSO)
Description	This report provides various information on employment, wages and salaries, value of fixed assets, input/output composition and other relevant information of the accommodation and food service sector in Nepal covering all the establishments belonging to section I (Accommodation and food service activities) of Nepal Standard Industrial Classification (NSIC).
Abstract	The National Hotel and Restaurant Survey 2024/25 identified a total of 142,223 accommodation and food service establishments operating during the reference period. These establishments engaged 387,747 persons, including proprietors, partners, unpaid family workers, and paid employees, of whom 106,459 were regular employees receiving salaries or wages. The sector incurred approximately NPR 20.62 billion in salaries, wages, and employee benefits. The survey further revealed that accommodation and food service establishments spent around NPR 216.74 billion on inputs and generated service output valued at NPR 326.01 billion, resulting in a value added of approximately NPR 109.27 billion to the national economy. By the end of the reference period, the total value of fixed assets held by these establishments was estimated at NPR 543.26 billion. In terms of financing, about 28.4 percent of establishments had obtained loans from financial institutions, while the remaining 71.6 percent operated without any outstanding loans. These findings highlight the significant contribution of the accommodation and food service sector to employment generation, capital formation, and economic growth in Nepal.

Description	Press note of the findings of NHRS survey 2024-25.

Major Findings of the Survey

8.1 Number of Establishments

According to the survey results, a total of 142,223 establishments providing accommodation and food services were in operation during the reference period.

8.2 Number of Persons Engaged

The number of persons engaged in accommodation and food service establishments includes actively working proprietors and partners, unpaid family members, and paid employees. The survey shows that a total of 387,747 persons were engaged in these establishments during the reference period.

8.3 Number of Employees

Employees refer to workers and staff who receive regular salaries or wages from accommodation and food service establishments. According to the survey, the total number of employees working in these establishments was 106,459.

8.4 Salaries, Wages, and Benefits

Salaries, wages, and benefits refer to the total expenditure incurred by accommodation and food service establishments on paid employees during the reference period, including cash payments, payments in kind, and other employee benefits. The survey indicates that these establishments spent approximately NPR 20.62 billion on salaries, wages, and benefits for their employees.

8.5 Value of Input, Output, and Value Added

During the reference period, accommodation and food service establishments incurred input costs amounting to approximately NPR 216.74 billion and produced services valued at approximately NPR 326.01 billion. As a result, these establishments generated an estimated value added of NPR 109.27 billion, contributing significantly to the national economy.

8.6 Value of Fixed Assets

By the end of the reference period, accommodation and food service establishments possessed fixed assets valued at approximately NPR 543.26 billion.

8.7 Status of Loans

The survey found that approximately 28.4 percent of accommodation and food service establishments had obtained loans from financial institutions, while 71.6 percent had not taken any loans as of the reference period.
