## Overview

### Identification

---

**ID NUMBER**

NPL-CBS-BCHIMES-2000-v1

### Version

---

**VERSION DESCRIPTION**

Version 1 : Cleaned, edited dataset for internal use.

**PRODUCTION DATE**

2000

### Overview

---

**ABSTRACT**

Although various socio-economic surveys are being conducted in Nepal, at times these surveys do not coincide with the planning and reporting cycles of HMG and UN agencies. Also, different surveys have different objectives, but the data from a comprehensive survey that covers indicators related to women and children is always valuable. A comprehensive Nepal Family Health Survey was conducted in 1996, which provided data for the mid-decade review in retrospect. Current data and indicators relating to issues of women and children are needed for gender specific planning and policy formulation. These data can also be used in planning other national-level programmes which are to begin in the middle of next year. This has led to the planning and execution of the present survey to generate data and indicators related to issues of women and children.

The primary objective of the Between Census Household Information for Monitoring and Evaluation System (BCHIMES) was to provide social indicators on issues related to women and children. This survey has come up with indicators on issues related to women and children for an end-decade assessment of progress of this decade and provide benchmark data for the next programme cycle.

**KIND OF DATA**

Sample survey data [ssd]

**UNITS OF ANALYSIS**

Household as well as individual

### Scope

---

**NOTES**

The scope of the BCHIMES includes:

HOUSEHOLDS: Household Characteristics, Education, Water Supply, Sanitation, Salt Iodisation,

INDIVIDUALS: Demographic and Social Characteristics, Family Planning, Ante-Natal and Delivery Care, Information education and communication, Childhealth, STD/HIV/AIDS, Breastfeeding, Care of Acute Respiratory Infections (ARI), Diarrhoea, Vitamin A, Immunisation

**TOPICS**

Topic	Vocabulary	URI

Nutrition	World Bank	

## Coverage

### GEOGRAPHIC COVERAGE (1)

National coverage

### GEOGRAPHIC COVERAGE (2)

Urban/Rural areas

### GEOGRAPHIC COVERAGE (3)

Ecological zones

### GEOGRAPHIC COVERAGE (4)

Sub-regions

### GEOGRAPHIC COVERAGE (5)

All eco-development regions of the Hills and Terai

### GEOGRAPHIC COVERAGE (6)

For mountain eco-development regions:

Eastern, Central & Western Mountains combined in one group

Mid- and Far-western Mountains combined in another group

### GEOGRAPHIC COVERAGE (7)

Kathmandu Valley

### UNIVERSE

The survey covered all selected household members, all women aged 15-49 years resident in the household, and all children aged 0-4 years (under age 5) resident in the household.

# Sampling

## Sampling Procedure

The NMIS evaluation report suggested that instead of two cycles per year in NMIS one survey be carried out every year with detailed analysis that would have wide-ranging dissemination and plans of data use. In the future, BCHIMES (Between Census Household Information, Monitoring and Evaluation System) will be conducted on a regular basis to generate needed data. The following suggestions were also made in the NMIS evaluation report for the effective design of the sample:

- For every new study, always select a new sample so as to minimise the Hawthorne effect.
- In order to minimise the standard error of the estimate, always try to make the cluster size small, i.e., around 50, as compared to an average cluster size of 120 for the NMIS cycles.

Thus, the new sample design should limit the average cluster size to 50 or smaller and a new sample should be drawn for a new study every time for the minimisation of the Hawthorne effect.

### Domains of estimation

A sample design to provide district level estimates was desirable keeping in view the decentralisation programme of the His Majesty's Government of Nepal. However, as the sample size needed for this would be very large and the survey undertaking also huge as well as expensive, it was decided that the size of the survey should provide national as well as some sub-regional estimates. Under the guidance of the Steering Committee as well as the discussion between the CBS personnel and UNICEF led to the conclusion that a minimum of 13 estimates is needed for different geographic areas and these are

1. Five eco-development regions each from the Terai and Hills;
2. Estimates for the Kathmandu Valley; and finally
3. Two estimates for the mountain region, for which the Central, Eastern and Western Mountain regions would be combined as one and the other would be the combination of the Mid-western and Far-western Mountain regions.

Although there are some variations within these mountain regions, regions having comparable characteristics would be combined as one. Since the number of households was the basis of the selection of our sample, we used average size of the household as an indicator to provide the similarity between these combined areas. For example, the average household size was 5.5 in both the Far-western and Mid-western Mountains. Likewise, the average household size for the Eastern, Central and Western Mountains is, respectively, 5.3, 5.0 and 4.8. That is, the average household size was slightly higher in the Far-western and the Mid-western regions and was slightly lower in the others including the Eastern, Central and Western Mountains. In other words, the areas that were combined were quite close in terms of average household size.

### Stratification

In domains with urban areas, the stratification was done according to urban/rural residence. Although the urban/rural estimates for these domains would be of interest, it would have increased the sample size considerably. Thus, at this stage, there were no plans to obtain urban/rural estimates for these 13 domains of estimation. Note, however, that the urban/ rural estimates could be available for the national level, as well as for the Hills and Terai. Because the sample was selected separately for each domain, there was a built-in stratification for the Hills, Terai and Mountains as well as the development regions for most of the domains of study.

### Estimation of sample size

Estimates of the sample size, to a large extent, depend on the variable under study. As some variables have a larger variation, sample size estimates depend on the variables. To circumvent this problem, statisticians usually resort to estimating the sample size for variables where the largest sample size is needed and use this as the required minimum sample size. Also, because most of the sample survey use the cluster sample approach, it was necessary to make an allowance of about 2 for the design effect. The magic figure of 2 was based on the design effect calculated for different variables in the Nepal Family Health Survey 1996. It was estimated that a sample size of 800 was adequate for most of the variables, taking into account a design effect factor of 2. This sample size of 800 was regarded as the minimum sample size required for the domain of analysis. Since there are 13 domains, a total of  $13 \times 800 = 10400$  households were required.

### Sample frame

The sample frame for this study was the data from the 1991 Census data on Households for VDCs and their wards. When the census was undertaken in 1991 there were only 31 urban areas in Nepal. However, after 1991 Census, the government declared new municipalities. As a result, there are currently 58 municipalities, of which one is a metropolitan city and three

are sub-metropolitan cities. The census data was updated to take into account the change in urban areas.

#### Allocation of the sample

In domains that have urban areas, the urban sample was allocated proportionately. Urban and rural samples were selected separately using a PPS (Probability Proportional to Size) method. Examples for this are provided in Table A1, page 161 of the Report on the Situation of Women, Children and Households, Between Census Household Information, Monitoring and Evaluation system (BCHIMES), March-May 2000.

The total number of clusters surveyed was 208 with an average cluster size of 50, providing a sample size of nearly 10,400. Likewise, the number of urban clusters will be 27 and the number of rural clusters will be 181. The proportion of urban clusters was 13 percent (See Table A1, Appendix 1 of the Report on the Situation of Women, Children and Households).

#### Selection procedure used

For any given domain, the districts were arranged according to the code for districts provided by the Central Bureau of Statistics. If the code of a district is lowest, it appears first in the list. Within the district, VDCs are listed in an alphabetical order. For each VDC, there will be nine wards, for which there is data regarding number of households, total population, males and females.

Initially, the number of households in a domain was cumulated. The total number of households in a domain is divided by the number of clusters selected in the domain. This provided the systematic interval. Then, a random number between 1 and the systematic interval was selected for the first selection. Once the first selection was made, the systematic interval was added to that for the second selection and so on, until the last selection for the domain was made. If a domain consisted of urban and rural areas, then the selection was made separately for the urban and rural areas. Obviously, a proportionate allocation of sample was done for urban as well as rural areas within a domain. Note that a cluster size of 50 was used for the purpose of data collection. In fact, a number of wards will have a population well over 50, and in some cases a ward could have a population substantially less than 50. In some cases, some wards may have to be split and other wards merged to provide a cluster size of around 50.

#### Distribution of the samples

A total of 208 clusters (10,295 households), with 181 rural clusters (87%) and 27 urban clusters (13%) were selected from 69 districts for the survey. The average cluster size was 50 households per cluster. Since the sample was stratified by region, it is not self-weighting; hence, sample weights were used for reporting national-level results.

## Response Rate

Of the 10,295 households sampled, 10,269 households were successfully interviewed, yielding a household response rate of 99.7%. In the interviewed households, 9,983 eligible women (currently married and 15-49 years of age) were identified and 9,424 of them were successfully interviewed, yielding a women's response rate of 94.4%. Overall, the response rate was 94.1%. Details of the response rate and reasons for non-response for geographical regions are shown in Table 16.1 and Table 16.2 from the Report on the Situation of Women, Children and Households, Between Census Household Information, Monitoring and Evaluation System, BCHIMES, March-May 2000.

The household response rate varied from 98.7% to 100% and women's response rate varied from 87.3% to 100% for regions. A high response rate for households and women was observed in the Hills (96% overall), followed by the Mountains (94.5% overall). Kathmandu Valley had a 100% response rate in households as well as in the women's questionnaire. The Terai had the lowest response rate of 91.9% overall. Within the Terai region, the Central Terai had the lowest response rate for both households and women's questionnaire (98.7% and 87.3%, respectively). The overall response rate in the Central Terai was 86.2%. The main reason for women's low response rate in the Terai region was because the fieldwork in the Terai region took place at the time of Holi (Festival of Colour) when most Terai women were celebrating at their maternal homes.

Only 26 households (0.3%) could not be interviewed. Hence, the reason for nonresponse in the household questionnaire is not mentioned here. Table 16.2 presents the non-response rate by reasons of non-response for the women's questionnaire by regions.

Overall, 559 women could not be interviewed at the time of the survey, yielding a nonresponse rate for women of 5.6%. The main reason for non-response for the women's questionnaire was the unavailability of women in the household (3.76%).

The children's questionnaire collected information on children under 5 years of age of currently married women aged 15-49 years by interviewing the women. This questionnaire omitted to include a question regarding the total number of children

under 5 years of age, to verify whether there were more eligible children under 5 than was identified in the household questionnaire. As a result, the denominator to compute the percentage that completed the children's questionnaire was taken from the data in the household questionnaire. Hence, the percentage that completed the children's questionnaire may be slightly lower than the figures in Table 16.3 of the same report.

The overall percentage completed (at minimum) in ARI/diarrhoea, vitamin A and immunisation modules were 92.3%, 89.4 % and 91.1%, respectively (Table 16.3). As in the case of the household questionnaire and women's questionnaire, the children's questionnaire also had a low percentage completed in the Central Terai region. The percentage completed (at minimum) for ARI/diarrhoea, vitamin A, and immunisation modules in the Central Terai region were 85.7%, 82.5% and 85.7 %, respectively.

Of the 10,269 households interviewed, 14,947 children aged 6-15 years were identified and information on 14,588 children could be gathered, yielding a response rate of 97.6% for the education module (Table 16.4, page 152 of same report). The response rates ranged from 94% to 100% for sub-regions. The response rate was highest in the Hills (99%) as compared to 96.5% for both the Terai and the Mountains.

## Weighting

---

Because of the equal allocation of sample size for all the domains, the proportionality of the sample allocation was not met and, thus, sample weights needed to be calculated for the national as well as the Hill, Terai and Mountain region estimates. Final weights/ raising factors depended on the number of households interviewed in each domain. For the calculation of sample weights, the module developed by UNICEF was used. For detail, please have a look at Appendix I Table A1 of the Report on the Situation of Women, Children and Households, Between Census Household Information, Monitoring and Evaluation System (BCHIMES), March - May 2000.

# Questionnaires

## Overview

---

Questionnaires were administered to households, currently married women aged 15-49 years, children aged 6-15 years, and children under 5 years of age in each selected household. The questionnaires were based on the Multiple Indicator Cluster Survey (MICS) model questionnaire. The English version of the questionnaires was translated into Nepali. The questionnaires were pre-tested in February 2000. Based on the results of the pre-test, modifications were made in the wording and translation.

The Household Questionnaire includes the following modules:

- Household Information Panel
- Household Schedule
- Education Module
- Drinking Water
- Sanitation and Latrine

The Individual Questionnaire includes the following modules:

- Individual Questionnaire Control
- Demographic and Social Characteristics
- Family Planning
- Ante-Natal and Delivery Care
- STD/HIV/AIDS
- Breastfeeding
- Care of Acute Respiratory Infections (ARI)
- Diarrhoea
- Vitamin A
- Immunisation

## Data Collection

### Data Collection Dates

2000-03	2000-05	N/A

### Data Collection Mode

---

Face-to-face [f2f]

### Data Collection Notes

---

Recruitment, training and fieldwork

Fourteen (14) teams were mobilised for data collection. Each team consisted of a team leader/supervisor, field data editor, and three female interviewers. A total of 71 field workers were mobilised for data collection. Team leaders/supervisors and field data editors were the permanent staff of CBS who were deputed for the survey. These field supervisors and editors were stationed at the central office or at different branch-level offices of the CBS. Likewise, seven female interviewers were also deputed from the central office of CBS. These deputed female interviewers collected data in Kathmandu Valley.

Thirty-six (36) female interviewers were recruited at three different districts, namely, Surkhet, Sunsari and Kathmandu. These 36 interviewers were distributed among 12 teams and sent to districts for data collection. The job of data collection was allocated to each interviewer so that each team visited districts in the Terai, Hills and Mountains.

The first training of interviewers was carried out in the second week of Falgun 2057, i.e., from 19 to 24 Feb 2000, and the field test was held on 25-26 Feb, 2000. This training was held in Kathmandu for the Kathmandu Valley teams as well as for trainers. A total of 11 field workers and seven trainers participated. A field test of the questionnaire was also carried out but because most of the questions were used in previous surveys, only minor changes were needed and especially with order-and-skip questions. This training also provided the opportunity for trainers to interact with interviewers and prepared them for conducting the training at Surkhet and Inaruwa.

The training in Inaruwa and Surkhet was held from 28 Feb to 5 March. Altogether 30 participants divided into six teams participated at each training site. One day was used for field practice and one half-day was allocated for the discussion of field problems.

The fieldwork started on 7 March 2000 and ended on 30 May 2000. That is, all data collection was completed in 82 days.

### Questionnaires

---

Questionnaires were administered to households, currently married women aged 15-49 years, children aged 6-15 years, and children under 5 years of age in each selected household. The questionnaires were based on the Multiple Indicator Cluster Survey (MICS) model questionnaire. The English version of the questionnaires was translated into Nepali. The questionnaires were pre-tested in February 2000. Based on the results of the pre-test, modifications were made in the wording and translation.

The Household Questionnaire includes the following modules:

- Household Information Panel
- Household Schedule
- Education Module

- Drinking Water
- Sanitation and Latrine

The Individual Questionnaire includes the following modules:

- Individual Questionnaire Control
- Demographic and Social Characteristics
- Family Planning
- Ante-Natal and Delivery Care
- STD/HIV/AIDS
- Breastfeeding
- Care of Acute Respiratory Infections (ARI)
- Diarrhoea
- Vitamin A
- Immunisation

## Data Collectors

Name	Abbreviation	Affiliation
Branch Statistics Offices	BSO	Central Bureau of Statistics

## Supervision

Supervision was done by the BSO Supervisors, BSO chief, Officials from CBS. The main role of supervisors are to take care of data collection and give necessary instruction to the enumerators if needed.

The data was collected by 14 teams, each made up of three female interviewers, one field editor, and one supervisor.

## Data Processing

### Data Editing

---

The data was collected by 14 teams, each made up of three female interviewers, one field editor and one supervisor. The data entry programme was generated using EPI Info version 6.04. The data was entered twice and was validated using the validation programme in EPI Info in order to avoid data entry errors. During the process of validation, a substantial amount of data needed to be verified from the actual questionnaire. Once the validation check was completed, the data was checked for internal consistency using a check programme not used during the data entry stage. This process also required substantial time and problems had to be rectified by going through the questionnaire several times with different checks. Thus processed, the data was converted into SPSS system files and were tabulated using the SPSS versions 10.0 and 7.5.

### Other Processing

---

A relational database programme was written in Epi Info package (a word processing database and statistics programme for public health) for data entry and SPSS (Statistical Package for Social Science) was used for data processing. For generating analytical tables in particular, a General Tables Command within the Custom Tables of SPSS was used. In order to maximize the quality of data entry, all records were entered twice by different data-entry operators and the Epi Info Validate Programme was used to validate every record. Beside these, other consistency and structural checks were carried out to ensure the quality of data.

## Data Appraisal

### **Estimates of Sampling Error**

This sampling design is same as that used in the Family Health Survey 1996 and thus the variance estimation formula used in NFHS1996 is also valid for this design.

The NFHS 1996 report uses the Jackknife method of estimation of standard errors for complex rates and proportions such as mortality rates. The application of this technique to NMIS data has provided for errors quite close to other estimation formulae. The initial formatting of the Jackknife method is time-consuming in EXCEL, but once set up for one variable, it can be used for other variables by substituting the new data. In fact, this method of variance estimation was used in this survey.

Note: For the formula and details of the computations, please check Tables A.2, A.3 and A.4 of the Report on the Situation of Women, Children and Households, Between Census Information, Monitoring and Evaluation System (BCHIMES), March - May 2000.

## File Description

## Variable List

## ARI Diarrhoea

Content	This dataset belongs to Individual Questionnaire Control. This file contains data related to diarrhoea disease. It is asked to those children who are of age up to 5 years.
Cases	0
Variable(s)	38
Structure	Type: relational Keys: cluster(Cluster Number), recordid(Record ID), Inumb(Line Number of the Person)
Version	Version 1
Producer	Central Bureau of Statistics

V109	resincom	Reasons for Incomplete Interview	discrete	numeric	Reasons for no/or incomplete interview
V110	dw401	Main Source of Drinking Water	discrete	numeric	What is the main source of drinking water in this household? (Circle appropriate code)
V111	dw402	Sufficient Water from the Source	discrete	numeric	Is water sufficient from that source?
V112	dw402a	Months per Year Available from the Source	contin	numeric	For how many months water available from that source? .....months
V113	dw403	Time Taken to Fetch Water from the Source-Trip	contin	numeric	How long it takes to bring one trip of water? .....minutes (if at house write 000 and ask question 405)

ID	Name	Label	Type	Format	Question
V114	dw404m	Trips Fetched Water by Male	contin	numeric	How many drinking water trips made yesterday for this household consumption? 1Male.....trip 2Female.....trip 3Children (under 15 yr.).....trips 4Total .....trips
V115	dw404f	Trips Fetched Water by Female	contin	numeric	How many drinking water trips made yesterday for this household consumption? 1Male.....trip 2Female.....trip 3Children (under 15 yr.).....trips 4Total .....trips
V116	dw404c	Trips Fetched Water by Child	contin	numeric	How many drinking water trips made yesterday for this household consumption? 1Male.....trip 2Female.....trip 3Children (under 15 yr.).....trips 4Total .....trips
V117	dw404t	Trips Fetched Water Total	contin	numeric	How many drinking water trips made yesterday for this household consumption? 1 Male.....trip 2 Female.....trip 3 Children (under 15 yr.).....trips 4 Total .....trips
V118	dw405a	Methods used to Purify Water-1st	discrete	numeric	What do you do to treat water? (upto 3 answers)
V119	dw405b	Methods used to Purify Water-2nd	discrete	numeric	What do you do to treat water? (upto 3 answers)
V120	dw405c	Methods used to Purify Water-3rd	discrete	numeric	What do you do to treat water? (upto 3 answers)
V121	dw4061	Diarrhoea	discrete	numeric	Did you noticed any following diseases in your community?
V122	dw4062	Dysentery	discrete	numeric	Did you noticed any following diseases in your community?
V123	dw4063	Jaundice	discrete	numeric	Did you noticed any following diseases in your community?
V124	dw4064	Typhoid	discrete	numeric	Did you noticed any following diseases in your community?
V125	dw4065	Cholera	discrete	numeric	Did you noticed any following diseases in your community?
V126	sl501	Have own Toilet Facility	discrete	numeric	Is this house has own toilet?
V127	sl502	Kind of Toilet Facility	discrete	numeric	What type of latrine has this house?
V128	sl503	Children 5-14 in the HH Use Toilet	discrete	numeric	Do all the children (Aged 5 to 14) use latrine?
V129	sl504	Adults in the House Use Toilet	discrete	numeric	Do all the adult ( >15 yrs of age) use latrine?
V130	sl505	Reason for not Using Toilet Facility	discrete	numeric	Why the latrine in not used?
V131	sl506	Toilet Far from House	discrete	numeric	How far is the latrine from house?
V132	sl507	Toilet far from Source of Water	discrete	numeric	How far is the latrine from source of water?
V133	sl508	Working Condition of Toilet	discrete	numeric	Is latrine in working condition? (See)
V134	sl509	Toilet Clean	discrete	numeric	Is latrine clean?

ID	Name	Label	Type	Format	Question
V135	sl510	Family Member usually goes for Defecation	discrete	numeric	Where household member goes for defecation?
V136	sl511	Reason for not Having Toilet Facility	discrete	numeric	What is the cause for not constructive latrine?
V137	sl512	What done with Children-Infant Stool	discrete	numeric	Where do you throw children's stool?
V138	sl513	Place of Disposal of Household Waste	discrete	numeric	Where do you throw the wastage of house?
V139	sl514	Distance from Home of Disposal Site	discrete	numeric	How far is the dustbin place from your house?
V140	sl515	Everybody Wash Hands before Meals	discrete	numeric	Do all the members wash hands before meal?
V141	sl516	Material used for Cleaning	discrete	numeric	What do they use for cleaning hand?
V142	sl517	Everybody Wash Hands after Defecation	discrete	numeric	Do all wash hands after defecation?
V143	sl518	Material used for Washing Hand	discrete	numeric	What do they use for hand washing?
V144	sl519	Adults Wash Hands before Preparing Food	discrete	numeric	Do all adult member wash hand before preparing meal?
V145	sl520	Adults Wash Hands before Feeding the Child	discrete	numeric	all adult member wash hand before feeding to young children?
V146	sl521	Water Storage Vessel Covered	discrete	numeric	Does the household cover the water vessel? (observe yourself )
V147	sl522	Leftover Food Covered	discrete	numeric	Does the household cover leftover food?
V148	elect	Electricity in HH	discrete	numeric	Do this household have following facilities?
V149	radio	Radio in HH	discrete	numeric	Do this household have following facilities?
V150	tv	TV in HH	discrete	numeric	Do this household have following facilities?
V151	phone	Phone in HH	discrete	numeric	Do this household have following facilities?
V152	cycle	Cycle in HH	discrete	numeric	Do this household have following facilities?
V153	mcycle	Motorcycle in HH	discrete	numeric	Do this household have following facilities?
V154	mcar	Motor Car in HH	discrete	numeric	Do this household have following facilities?
V155	freedge	Fridge in HH	discrete	numeric	Do this household have following facilities?
V156	sl524	Type of Oven	discrete	numeric	What do you use for cooking food?
V157	sl525	No. of Rooms used for Sleeping	contin	numeric	How many rooms are used in this household for sleeping? .....
V158	si601	Test Outcome of Iodine Reading	discrete	numeric	Result (Iodine content ) .... PPM
V159	si602	Type of Salt	discrete	numeric	Type of salt used
V160	si603	Last time salt was bought	contin	numeric	When did you buy this salt?.....months
V161	si604	Reasons for using Brand of Salt	discrete	numeric	Why did you use this salt?
V162	hhweight	Household weight	contin	numeric	

## Immunization

Content	The file contains data related to Module 1000: Immunisation of the Individual Questionnaire. Information on immunisation of children aged 12-23 months is obtained from mothers/ caretakers.
Cases	0
Variable(s)	55
Structure	Type: relational Keys: cluster(Cluster Number), recordid(Record ID), Inumb(Line Number of the Person)
Version	Version 3 - Cleaned, edited and anonymized final dataset
Producer	Central Bureau of Statistics

V281	fp304c	Method Ever Used 3	discrete	numeric	What had you done?
V282	fp305	Current Use of FP	discrete	numeric	Are you or your husband currently doing something or using any method to delay or avoid your getting pregnant?
V283	fp306	Method Currently Using	discrete	numeric	What method are you/your husband currently using?
V284	fp307	Signed Consent form for STE	discrete	numeric	Did you/your spouse sign a consent form at the time of sterilisation?
V285	fp308	Number of Sons at the Time of STE	contin	numeric	How many sons did you have at the time of sterilisation?
V286	fp309	Number of Daughters at the Time of STE	contin	numeric	How many daughters did you have at the time of sterilisation?
V287	fp310	Any Regret having STE	discrete	numeric	Do you regret that you/your husband had the operation not to have any children?

ID	Name	Label	Type	Format	Question
V288	fp311	Reason for Regret	discrete	numeric	Why do you regret the operation?
V289	fp312	How Long Currently Using FP Methods	contin	numeric	How long have you been using the last method of family planning? __ Months
V290	fp313	Any Side Effects of FP	discrete	numeric	Did you experience any side-effects?
V291	fp314a	Side Effects of FP 1	discrete	numeric	If yes, what was it?
V292	fp314b	Side Effects of FP 2	discrete	numeric	If yes, what was it?
V293	fp314c	Side Effects of FP 3	discrete	numeric	If yes, what was it?
V294	fp315	Consult With HW for Treat of Side Effects	discrete	numeric	Did you go anywhere or contact any health/FP worker for the treatment of side effect?
V295	fp316	Where Consult for Treatment	discrete	numeric	Where did you go or whom did you contact for treatment?
V296	fp317	Improve After Treatment	discrete	numeric	Was their treatment/advice helpful?
V297	fp318	Nearest Center FP Service	discrete	numeric	Where is the nearest place you can get family planning service?
V298	fp319	Reason for not Using FP Methods	discrete	numeric	What is the main reason for not using any contraception to avoid getting pregnant?
V299	fp320	Desire of Using FP Methods in Future	discrete	numeric	Do you plan to use family planning method in future?
V300	fp321	Which FP Methods Wants to Use	discrete	numeric	Which method do you plan to use?
V301	fp322	Discussion of FP Methods With Spouse	discrete	numeric	Have you and your husband ever discussed the number of children you should have?
V302	fp323	Discussion about No. of Children	discrete	numeric	Have you and your husband ever discussed the use of family planning methods?
V303	fp324	Ever Heard Ghanti Heri Had Nilau	discrete	numeric	Have you ever heard "Ghanti Heri Haad Nilnu" radio programme?
V304	fp325a	Wants to Hear By Radio-TV 1	discrete	numeric	What sort of information about family planning or health would you be interested to hear/see on radio/TV?
V305	fp325b	Wants to Hear By Radio-TV 2	discrete	numeric	What sort of information about family planning or health would you be interested to hear/see on radio/TV?
V306	fp325c	Wants to Hear By Radio-TV 3	discrete	numeric	What sort of information about family planning or health would you be interested to hear/see on radio/TV?
V307	fp326	Suitable Time to Broadcast in Radio-TV	discrete	numeric	What should be the best time to broadcast these messages?
V308	ac401	ANC Services in This/Last Pregnancy	discrete	numeric	Did you go anywhere for antenatal care during your this/last pregnancy?
V309	ac402	Where for ANC	discrete	numeric	Where did you go?
V310	ac403	Who Examined in ANC	discrete	numeric	Who did you see?
V311	ac4041	Discussion about Place of Delivery	discrete	numeric	Did the health care provider discussed about:
V312	ac4042	Discussion about Breastfeeding	discrete	numeric	Did the health care provider discussed about:
V313	ac4043	Discussion about TT	discrete	numeric	Did the health care provider discussed about:
V314	ac4044	Discussion about Nutrition	discrete	numeric	Did the health care provider discussed about:

ID	Name	Label	Type	Format	Question
V315	ac4045	Discussion about Sanitation	discrete	numeric	Did the health care provider discussed about:
V316	ac4046	Discussion about Iron-Folic Acid	discrete	numeric	Did the health care provider discussed about:
V317	ac4047	Discussion about Danger Sign in Pregnancy	discrete	numeric	Did the health care provider discussed about:
V318	ac4048	Discussion about Danger Sign in Delivery	discrete	numeric	Did the health care provider discussed about:
V319	ac4049	Discussion Place to go after Danger Sign	discrete	numeric	Did the health care provider discussed about:
V320	ac40410	Discussion about FP Methods	discrete	numeric	Did the health care provider discussed about:
V321	ac405	Time Taken to Reach Institution	contin	numeric	How long did it take you to get there from your home? __ Minutes
V322	ac406	How Many Times Received ANC	contin	numeric	During this/last pregnancy how many times did you receive antenatal care? __ Times
V323	ac407	Months Pregnant in First ANC	contin	numeric	How many months pregnant were you when you first received antenatal care during your this/last pregnancy? __ Months
V324	ac408	TT Shots during Pregnancy	discrete	numeric	Were you given TT shots during your this/last pregnancy?
V325	ac409	Times TT Shots	contin	numeric	If yes, how many times during this/last pregnancy? __ Times
V326	ac410	TT Shots in Prev Pregnancy	discrete	numeric	Were you given any TT shots during previous pregnancy?
V327	ac411	Times in Prev Pregnancy	contin	numeric	If yes how many times? __ Times
V328	ac412	Received Iron Folic Acid	discrete	numeric	Did you receive or buy Iron or Iron/Folic Acid combination tablets during this/last pregnancy?
V329	ac413	Days Took Iron Folic Acid	contin	numeric	How many days did you take them during your this/last pregnancy? __ Days
V330	ac414	Experienced Any Problems during Pregnancy	discrete	numeric	Did you experience any complications/problem during this/last pregnancy?
V331	ac415a	What was the Problem 1	discrete	numeric	If yes, what was the problem?
V332	ac415b	What was the Problem 2	discrete	numeric	If yes, what was the problem?
V333	ac415c	What was the Problem 3	discrete	numeric	If yes, what was the problem?
V334	ac416	Sought Help for the Problem	discrete	numeric	Did you seek help for this problem?
V335	ac417	Where Did You Seek Help	discrete	numeric	Where did you seek help for the problem?
V336	ac418	Satisfied with the Services	discrete	numeric	Were you satisfied with the services?
V337	ac419a	Problem with the Services 1	discrete	numeric	What was the problem with the services?
V338	ac419b	Problem with the Services 2	discrete	numeric	What was the problem with the services?
V339	ac419c	Problem with the Services 3	discrete	numeric	What was the problem with the services?
V340	ac420a	Why No ANC Services 1	discrete	numeric	Why did you not go for ANC service?
V341	ac420b	Why No ANC Services 2	discrete	numeric	Why did you not go for ANC service?
V342	ac420c	Why No ANC Services 3	discrete	numeric	Why did you not go for ANC service?
V343	ac421	Smoked Tobacco during Pregnancy	discrete	numeric	Did you smoke (tobacco) while you were pregnant?

ID	Name	Label	Type	Format	Question
V344	ac422	Drank Alcohol in Pregnancy	discrete	numeric	Did you drink alcohol/beer during pregnancy?
V345	ac423	How often Drank	discrete	numeric	How often did you drink alcohol during last pregnancy?
V346	ac424	Suffer from Night Blindness	discrete	numeric	Did you suffer from night blindness during your this/last pregnancy?
V347	ac425	Food Intake	discrete	numeric	Did your food intake decrease or increase during this/last pregnancy?
V348	ac426a	Symptoms Leading to Emergency Care 1st	discrete	numeric	What signs and symptoms during pregnancy will lead you to seek emergency care?
V349	ac426b	Symptoms Leading to Emergency Care 2nd	discrete	numeric	What signs and symptoms during pregnancy will lead you to seek emergency care?
V350	ac426c	Symptoms Leading to Emergency Care 3rd	discrete	numeric	What signs and symptoms during pregnancy will lead you to seek emergency care?
V351	ac426d	Symptoms Leading to Emergency Care 4th	discrete	numeric	What signs and symptoms during pregnancy will lead you to seek emergency care?

V364	dc434	Size of Baby at Birth	discrete	numeric	How big was the child at the time of delivery?
V365	dc435	Received Postpartum Check Up	discrete	numeric	Did you receive postpartum check-up within 24 hours of delivery?
V366	dc4361	Prolonged Labor	discrete	numeric	Around the time of birth did you have any of the following complications/problems?
V367	dc4362	Excessive Bleeding	discrete	numeric	Around the time of birth did you have any of the following complications/problems?
V368	dc4363	Foul Smelling Vaginal Discharge	discrete	numeric	Around the time of birth did you have any of the following complications/problems?
V369	dc4364	Convulsions	discrete	numeric	Around the time of birth did you have any of the following complications/problems?

ID	Name	Label	Type	Format	Question
V370	dc437	Where Contacted for Problem	discrete	numeric	Where was she referred to for this/these problems?
V371	dc438	Mode of Transport Used to Reach	discrete	numeric	What mode of transport was used to reach the service centre?
V372	ha501	Knowledge of STD	discrete	numeric	Have you ever heard of illness called STD?
V373	ha502a	Source of Information STD 1	discrete	numeric	From which source of information have you learned about STD?
V374	ha502b	Source of Information STD 2	discrete	numeric	From which source of information have you learned about STD?
V375	ha502c	Source of Information STD 3	discrete	numeric	From which source of information have you learned about STD?
V376	ha503	Knowledge of AIDS	discrete	numeric	Have you ever heard of illness called AIDS?
V377	ha504a	Source of Information AIDS 1	discrete	numeric	From which sources of information have you learned most about AIDS?
V378	ha504b	Source of Information AIDS 2	discrete	numeric	From which sources of information have you learned most about AIDS?
V379	ha504c	Source of Information AIDS 3	discrete	numeric	From which sources of information have you learned most about AIDS?
V380	ha505	Things to Avoid Getting AIDS	discrete	numeric	Is there anything a person can do to avoid getting AIDS or the virus that causes AIDS?
V381	ha506a	What Can They Do 1st	discrete	numeric	What can a person do? Any other ways?
V382	ha506b	What Can They Do 2nd	discrete	numeric	What can a person do? Any other ways?
V383	ha506c	What Can They Do 3rd	discrete	numeric	What can a person do? Any other ways?
V384	ha506d	What Can They Do 4th	discrete	numeric	What can a person do? Any other ways?
V385	ha506e	What Can They Do 5th	discrete	numeric	What can a person do? Any other ways?
V386	ha506f	What Can They Do 6th	discrete	numeric	What can a person do? Any other ways?
V387	ha506g	What Can They Do 7th	discrete	numeric	What can a person do? Any other ways?
V388	ha506h	What Can They Do 8th	discrete	numeric	What can a person do? Any other ways?
V389	ha506i	What Can They Do 9th	discrete	numeric	What can a person do? Any other ways?
V390	ha506j	What Can They Do 10th	discrete	numeric	What can a person do? Any other ways?
V391	ha506k	What Can They Do 11th	discrete	numeric	What can a person do? Any other ways?
V392	ha506l	What Can They Do 12th	discrete	numeric	What can a person do? Any other ways?
V393	ha507	Possibility of Healthy Person to Have AIDS	discrete	numeric	Is it possible for a healthy-looking person to have the AIDS virus?
V394	ha508	Your Chance of Getting AIDS	discrete	numeric	Do you think your chances of getting AIDS are small, moderate, great or that you have no risk at all?
V395	ha509	Knowledge of HIV Testing Place	discrete	numeric	Do you know the place where you could get (blood) tested for HIV?
V396	ha510	Ever Been Tested	discrete	numeric	You do not need to tell me the results, have you ever been tested for HIV?
V397	bf601	Whether Breastfed Last Child	discrete	numeric	Did you ever breastfeed your last child?
V398	bf602	Time after Birth Child Breastfed	contin	numeric	How long after birth did you put child to breast? __ Hours

ID	Name	Label	Type	Format	Question
V399	bf603	Fed Colustrum	discrete	numeric	Did you feed colostrum to the child?
V400	bf604	Number of Months Breastfeeding	contin	numeric	For how many months have you been breastfeeding this child? __ Months
V401	bf605	How long intends to Breastfeed	contin	numeric	If still breastfeeding how long do you intend to breastfeed him/her? __ Months
V402	bf606	Time Water Given to Child	contin	numeric	At what age did you give water to drink for your child? __ Months
V403	bf607	Child Fed Anything from Bottle Yesterday	discrete	numeric	Was the child fed anything from the feeding bottle yesterday or last night?
V404	bf608	When Food Supplements Given	contin	numeric	When (at what age) did you start giving other food to the child? (Age) __ Months
V405	bf609	Reason for not Breastfeeding	discrete	numeric	If not currently breastfeeding, why did you stop breastfeeding the child?
V406	ch809a	Symptoms Leading to Emergency Care 1st	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V407	ch809b	Symptoms Leading to Emergency Care 2nd	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V408	ch809c	Symptoms Leading to Emergency Care 3rd	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V409	ch809d	Symptoms Leading to Emergency Care 4th	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V410	ch809e	Symptoms Leading to Emergency Care 5th	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V411	ch809f	Symptoms Leading to Emergency Care 6th	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V412	ch809g	Symptoms Leading to Emergency Care 7th	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V413	ch809h	Symptoms Leading to Emergency Care 8th	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V414	ch809i	Symptoms Leading to Emergency Care 9th	discrete	numeric	When the child is sick what symptoms will lead you to seek cure at health institutions or a medical personnel?
V415	va901	Aware of National Vit A Program	discrete	numeric	Are you aware of the National Vitamin 'A' programme?
V416	va902	Knowledge of Vit A Program in Family	discrete	numeric	Are any other members of your family aware of this programme?
V417	im1018	Whether the IMM Card was Given	discrete	numeric	If no vaccination card, then ask, was she given any vaccination card during vaccination of the child?
V418	im1019	Told to Keep Card Safely, Bring Next Time	discrete	numeric	Was she asked to keep the card safely and bring it back the next time she brings the child for immunisation?

ID	Name	Label	Type	Format	Question
V419	im1020	Told about Protection against Disease	discrete	numeric	During immunisation were you informed about the vaccine and what it protects against?
V420	im1021	Informed Number of Shots to be Completed	discrete	numeric	During immunisation were you informed about the number of doses to be completed?
V421	im1022	Whether Inform the Side Effects of IMM	discrete	numeric	During immunisation were you informed about the side-effects of immunisation including fever /swelling at the site of immunisation?
V422	bfchsex	Gender of the Child for BF Module	discrete	numeric	Gender of the Children
V423	bfchage	Child Age for BF Module	contin	numeric	Age of the children
V424	chagunit	Child Age Unit for BF Module	discrete	character	Unit of the children age
V425	wmweight	Woman weight	contin	numeric	

## Urban/Rural Residence (urban)

#### Universe

All children of age 6-15 years only who never attended school (ed301 = 2)

#### Literal question

Why did not s/he go to school?

#### Post question

Multiple response questions record up to 3 responses.

Ask from section 400.

## Why Not-2nd (ed302b)

### File: Education

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-9  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

All children of age 6-15 years only who never attended school (ed301 = 2)

#### Literal question

Why did not s/he go to school?

#### Post question

Multiple response questions record up to 3 responses.

Ask from section 400.

## Why Not-3rd (ed302c)

### File: Education

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-9  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

All children of age 6-15 years only who never attended school (ed301 = 2)

#### Literal question

Why did not s/he go to school?

#### Post question

Multiple response questions record up to 3 responses.

Ask from section 400.

## Currently in School (ed303)

### File: Education

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	

#### Universe

All children of age 6-15 years only who have ever attended school (ed301 = 1)

#### Literal question

Is s/he currently attending school?

#### Post question

Circle appropriate codes.

1=Yes (Ask Q304)

2=No (Q311)

## Ever Studied at Pre-School (ed304)

### File: Education

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2

 Range: 41-97  
 Invalid: 99, 98

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

All children of age 6-15 years only who are currently attending school (ed303 = 1)

#### Literal question

What year did s/he enter grade 1?

## Time Taken to Reach the School (ed308)

### File: Education

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 0-998  
 Invalid: 999

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

All children of age 6-15 years only who are currently attending school (ed303 = 1)

#### Literal question

How much time does s/he spend on commuting to school?(in minutes)

#### Post question

(in minutes)

## Child Attended School in Last Three Days (ed309)

### File: Education

#### Overview

## Child Attended School in Last Three Days (ed309)

### File: Education

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-3  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

All children of age 6-15 years only who are currently attending school (ed303 = 1)

#### Literal question

Did s/he go to school during last three days (except holidays)?

#### Post question

If 0 go to 310

For 1, 2, 3, ask from section 400.

## Why did not Child Attend School-1st (ed310a)

### File: Education

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-7  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ed309 = 0

#### Literal question

If the child did not attend any classes in last three school days ask why did this child did not go to school these days?

#### Post question

Multiple response questions record up to three responses.

## Why did not Child Attend School-2nd (ed310b)

### File: Education

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-7  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ed309 = 0

#### Literal question

If the child did not attend any classes in last three school days ask why did this child did not go to school these days?

#### Post question

Multiple response questions record up to three responses.

## Why did not Child Attend School-3rd (ed310c)

### File: Education

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-7	
Invalid: 9	

#### Universe

ed309 = 0

#### Literal question

If the child did not attend any classes in last three school days ask why did this child did not go to school these days?

#### Post question

Multiple response questions record up to three responses.

## Type of School Prev Went to (ed311)

### File: Education

 Invalid: 9

Valid cases: 0  
 Invalid: 0

**Literal question**

Reasons for no or incomplete interview

## Age in Completed Years (dm201)

## File: Women

**Overview**

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 15-49  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Universe**

Marrried women aged 15-49 years

**Literal question**

How old are you?

**Post question**

Write completed years.

## Age at Marriage (dm202)

## File: Women

**Overview**

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 10-49  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Universe**

Marrried women aged 15-49 years

**Literal question**

At what age were you first married?

**Post question**

Write completed years.

## Number of Sons Given Birth to (dm203)

## File: Women

**Overview**

## Number of Sons Given Birth to (dm203)

### File: Women

Type: Continuous  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-8  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Marrried women aged 15-49 years

#### Literal question

How many sons have you given birth to?

#### Post question

Write 00 if none and skip to Q205.

## Sons Surviving (dm204)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-8  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have born sons

#### Literal question

How many of them are alive?

#### Post question

Write 00 if none.

## Number of Daughters Given Birth to (dm205)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-8  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Marrried women aged 15-49 years

#### Literal question

How many of them are alive?

#### Post question

Write 00 if none and skip to Q207.

## Daughters Surviving (dm206)

### File: Women

## Daughters Surviving (dm206)

### File: Women

 Range: 0-8  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have born daughters

#### Literal question

How many of them are alive?

#### Post question

Write 00 if none.

## Pregnancy Status (dm207)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Marrried women aged 15-49 years

#### Literal question

Are your currently pregnant?

#### Post question

No -> Skip to instructions just before Q208.

## Months into Pregnancy (dm207i)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Pregnant women aged 15-49

#### Literal question

How many months into pregnancy? \_\_\_\_\_ months

## Age at first Pregnancy (dm208)

### File: Women

## Age at first Pregnancy (dm208)

### File: Women

#### Overview

Type: Continuous	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 13-99	
Invalid: 99	

#### Universe

Pregnant women aged 15-49 years

#### Pre question

If she has never been pregnant ask Q210. If she has given at least one birth or is currently pregnant, then ask Q208.

#### Literal question

At what age did you get pregnant for the first time?

#### Post question

Write completed years.

## Desire for More Children (dm209)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-3	
Invalid: 9	

#### Universe

Pregnant women aged 15-49 years

#### Literal question

Do you want to have any more children (apart from current pregnancy)?

#### Post question

No -> Skip to Q211.

## How Many More (dm210)

### File: Women

#### Overview

Type: Continuous	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 0-8	
Invalid: 9	

#### Universe

Pregnant women aged 15-49 years

#### Literal question

How many children would you like to have?

## Ever Been to School (dm211)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	
Invalid: 9	

#### Universe

Pregnant women aged 15-49 years

#### Literal question

Have you ever attended school?

#### Post question

No -> Ask Q213.

## Highest Grade Completed (dm212)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-96	
Invalid: 99	

#### Universe

Pregnant women aged 15-49 years

#### Literal question

What is the highest grade you have completed?

#### Post question

Ask Q 214 if grade 5 or above.

## Able to Read and Write (dm213)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-3	
Invalid: 9	

#### Universe

Pregnant women aged 15-49 years

#### Literal question

Can you read and write?

#### Post question

No -> Ask Q215

## Times Read Papers/Magazine in a Week (dm214)

## File: Women

**Overview**

## File: Women

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-10  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Universe**

Married women aged 15-49 who are currently pregnant or have children under 5 years of age

**Literal question**

What signs and symptoms during pregnancy will lead you to seek emergency care?

**Post question**

Mark all responses.

## Place of Delivery (dc427)

## File: Women

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-6  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

**Universe**

Married women aged 15-49 who have had at least one delivery

**Pre question**

Tick-mark the following:

1. If at least one delivery, start asking from Q427.
2. If never delivered, skip to Q501.

**Literal question**

Where did you deliver your last child?

## Who Assisted (dc428)

## File: Women

**Overview**

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-11	
Invalid: 99	

**Universe**

Married women aged 15-49 who have had at least one delivery

**Literal question**

Who assisted you in delivery?

**Post question**

10. No One -> Skip to Q430.

## When Assisted (dc429)

## File: Women

**Overview**

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-5	
Invalid: 9	

**Universe**

dc428 <> 10

**Literal question**

When did they assist you?

## HDK Used (dc430)

## File: Women

**Overview**

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	
Invalid: 9	

**Universe**

dc427 = 1, 2, 6

**Pre question**

Tick-mark below:

1. If delivered at health institution, skip to Q434.
2. Otherwise, skip to Q430.

**Literal question**

If not delivered at health institutions was HDK used (show the Home Delivery Kit to the respondent) in delivery?

**Post question**

2. No -> Skip to Q432.

## Where HDK obtained (dc431)

## File: Women

**Overview**

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-9	
Invalid: 99	

**Universe**

dc430 = 1

**Literal question**

Where did you get it?

## Instrument to Cut the Umbilical Cord (dc432)

## File: Women

**Overview**

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-5	
Invalid: 9	

**Universe**

dc427 = 1, 2, 6

**Literal question**

What was used to cut the umbilical cord?

## Instrument to Treat the Cord (dc433)

## File: Women

**Overview**

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-7	
Invalid: 9	

**Universe**

dc427 = 1, 2, 6

**Literal question**

What was used to treat the cord?

## Size of Baby at Birth (dc434)

## File: Women

**Overview**

## Size of Baby at Birth (dc434)

### File: Women

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-5  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have had at least one delivery

#### Literal question

How big was the child at the time of delivery?

## Received Postpartum Check Up (dc435)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have had at least one delivery

#### Literal question

Did you receive postpartum check-up within 24 hours of delivery?

## Prolonged Labor (dc4361)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have had at least one delivery

#### Literal question

Around the time of birth did you have any of the following complications/problems?

## Excessive Bleeding (dc4362)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

## Excessive Bleeding (dc4362)

### File: Women

#### Universe

Married women aged 15-49 who have had at least one delivery

#### Literal question

Around the time of birth did you have any of the following complications/problems?

## Foul Smelling Vaginal Discharge (dc4363)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2  
Invalid: 9

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have had at least one delivery

#### Literal question

Around the time of birth did you have any of the following complications/problems?

## Convulsions (dc4364)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2  
Invalid: 9

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

Married women aged 15-49 who have had at least one delivery

#### Literal question

Around the time of birth did you have any of the following complications/problems?

## Where Contacted for Problem (dc437)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-10  
Invalid: 99

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

any of dc4361 - dc4364 = 1

#### Pre question

If 'no' in all categories of Q436 skip to Module 500. If 'yes' in any of the categories, ask:

#### Literal question

## Where Contacted for Problem (dc437)

### File: Women

Where was she referred to for this/these problems?

#### Post question

If 'nowhere', skip to Module 500

## Mode of Transport Used to Reach (dc438)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-6  
Invalid: 9

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

any of dc4361 - dc4364 = 1

#### Literal question

What mode of transport was used to reach the service centre?

## Knowledge of STD (ha501)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2  
Invalid: 9

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

Currently married women aged 15-49

#### Literal question

Have you ever heard of illness called STD?

#### Post question

2. No -> Ask Q503.

## Source of Information STD 1 (ha502a)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-13  
Invalid: 99

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

ha501 = 1

#### Literal question

From which source of information have you learned about STD?

## Source of Information STD 1 (ha502a)

### File: Women

#### Post question

Probe: Any other sources?

Record the first three mentioned.

## Source of Information STD 2 (ha502b)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-13  
Invalid: 99

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

ha501 = 1

#### Literal question

From which source of information have you learned about STD?

#### Post question

Probe: Any other sources?

Record the first three mentioned.

## Source of Information STD 3 (ha502c)

### File: Women

#### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-13  
Invalid: 99

Valid cases: 0 (0)  
Invalid: 0 (0)

#### Universe

ha501 = 1

#### Literal question

From which source of information have you learned about STD?

#### Post question

Probe: Any other sources?

Record the first three mentioned.

## Knowledge of AIDS (ha503)

### File: Women

#### Overview

## Knowledge of AIDS (ha503)

### File: Women

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Currently married women aged 15-49

#### Literal question

Have you ever heard of illness called AIDS?

#### Post question

2. No -> Ask from Module 600.

## Source of Information AIDS 1 (ha504a)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-13  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha503 = 1

#### Literal question

From which sources of information have you learned most about AIDS?

#### Post question

Probe: Any other sources?

Record first three mentioned.

## Source of Information AIDS 2 (ha504b)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-13  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha503 = 1

#### Literal question

From which sources of information have you learned most about AIDS?

#### Post question

Probe: Any other sources?

Record first three mentioned.

## Source of Information AIDS 3 (ha504c)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-13	
Invalid: 99	

#### Universe

ha503 = 1

#### Literal question

From which sources of information have you learned most about AIDS?

#### Post question

Probe: Any other sources?

Record first three mentioned.

## Things to Avoid Getting AIDS (ha505)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	
Invalid: 9	

#### Universe

ha503 = 1

#### Literal question

Is there anything a person can do to avoid getting AIDS or the virus that causes AIDS?

#### Post question

2. No -> Ask Q507.

## What Can They Do 1st (ha506a)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-12	
Invalid: 99	

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 2nd (ha506b)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 3rd (ha506c)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 5th (ha506e)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 6th (ha506f)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 7th (ha506g)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 8th (ha506h)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 9th (ha506i)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 10th (ha506j)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-12  
 Invalid: 99

Valid cases: 0 (0)

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 11th (ha506k)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-12	
Invalid: 99	

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## What Can They Do 12th (ha506l)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0	
Range: 1-12	
Invalid: 99	

#### Universe

ha505 = 1

#### Literal question

What can a person do? Any other ways?

#### Post question

Probe and record all mentioned.

## Possibility of Healthy Person to Have AIDS (ha507)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-3	
Invalid: 9	

#### Universe

ha503 = 1

#### Literal question

Is it possible for a healthy-looking person to have the AIDS virus?

## Your Chance of Getting AIDS (ha508)

### File: Women

## Your Chance of Getting AIDS (ha508)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-7	
Invalid: 9	

#### Universe

ha503 = 1

#### Literal question

Do you think your chances of getting AIDS are small, moderate, great or that you have no risk at all?

## Knowledge of HIV Testing Place (ha509)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	
Invalid: 9	

#### Universe

ha503 = 1

#### Literal question

Do you know the place where you could get (blood) tested for HIV?

#### Post question

2. No -> Skip to 600.

## Ever Been Tested (ha510)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	
Invalid: 9	

#### Universe

ha509 = 1

#### Literal question

You do not need to tell me the results, have you ever been tested for HIV?

## Whether Breastfed Last Child (bf601)

### File: Women

#### Overview

## Whether Breastfed Last Child (bf601)

### File: Women

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

Married women 15-49 with at least one child aged under 5

#### Pre question

Tick-mark one of the following:

1. Respondent has no children under 5, stop interviewing.
2. Respondent has at least one child under 5, continue Module 600.

#### Literal question

Did you ever breastfeed your last child?

#### Post question

2. No -> Go to Module 700.

## Time after Birth Child Breastfed (bf602)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-98  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

bf601 = 1

#### Literal question

How long after birth did you put child to breast? \_\_ Hours

#### Post question

If less than one hour, write 00.

## Fed Colostrum (bf603)

### File: Women

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-2  
 Invalid: 9

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

bf601 = 1

#### Literal question

Did you feed colostrum to the child?

## Number of Months Breastfeeding (bf604)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-88  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

bf601 = 1

#### Literal question

For how many months have you been breastfeeding this child? \_\_ Months

#### Post question

Write 88 for still breastfeeding. If stopped breastfeeding, skip to Q606.

## How long intends to Breastfeed (bf605)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 2-97  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

bf604 = 88

#### Literal question

If still breastfeeding how long do you intend to breastfeed him/her? \_\_ Months

## Time Water Given to Child (bf606)

### File: Women

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-88  
 Invalid: 99

Valid cases: 0 (0)  
 Invalid: 0 (0)

#### Universe

bf601 = 1

#### Literal question

At what age did you give water to drink for your child? \_\_ Months

#### Post question

Write 88 if the child was not given water.

## Child Fed Anything from Bottle Yesterday (bf607)

### File: Women

## Child Fed Anything from Bottle Yesterday (bf607)

### File: Women

#### Overview

Type: Discrete	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 1	
Decimals: 0	
Range: 1-2	
Invalid: 9	

#### Universe

bf601 = 1

#### Literal question

Was the child fed anything from the feeding bottle yesterday or last night?

#### Post question

Write 88 if water not given yet.

## When Food Supplements Given (bf608)

### File: Women

#### Overview

Type: Continuous	Valid cases: 0 (0)
Format: numeric	Invalid: 0 (0)
Width: 2	
Decimals: 0

## Reports

### BCHIMES - 2000, Report on the Situation of Women, Children and Households

---

Title BCHIMES - 2000, Report on the Situation of Women, Children and Households  
Author(s) Central Bureau of Statistics (CBS)  
Date 2001-09-01  
Country Nepal  
Contributor(s) UNICEF/Nepal  
Publisher(s) Central Bureau of Statistics  
Description Topics covered in the survey were education, household facilities, vital registration, water, sanitation, iodised salt, immunisation, vitamin 'A', anti natal care, post natal care, child health, family planning, breastfeeding, information, education and communication and HIV/AIDS. The sample households are representative of the country, with three ecological zones, 13 sub-regions, and urban and rural areas of the country. This survey is the continuation and improvement recommended by the evaluation committee on Nepal Multiple Indicator Surveillance (NMIS), which completed its sixth cycle during 1997-1998. The fieldwork of this survey was conducted March to May 2000. To encourage use data, additional data analysis of the BCHIMES findings, electronic data files are available to interested researchers from CBS.  
BCHIMES highlights the current situation of the above mentioned subjects and also suggests some measures that can be undertaken to improve the situation in the country. It provides a detailed analysis of polio and vitamin 'A' coverage during National Polio Immunisation/Vitamin 'A' days, and literacy by its source. It is believed that findings from this report will be of great value to planners, policymakers, researchers and service providers involved in these areas for the effective monitoring and evaluation of plans and programmes.

Chapter 1 Methodology	Introduction
	Survey objective and the content of questionnaire
	Survey organisation
	Sample design
	Scope and coverage of survey
	Questionnaire design
	Recruitment, training and fieldwork
	Data entry and processing
Chapter 2 Household Characteristics	Household size, age structure, sex ratio and dependency ratio
	Household heads by sex
	Literacy status of household heads
	Religion of household heads
	Vital registration of children
	Household facilities
	Households with number of bed rooms
	Summary and conclusion
Chapter 3 Education	Literacy
	Gross Enrolment Rate
	Net Enrolment Rate
	Dropout rate
	Reasons for dropout
	Time taken to and from school
	Attendance of currently school going children in the last 3 days
	Reasons for not attending school in the last 3 days
	Early Childhood Development (ECD) Experience/pre-primary
	Summary and conclusion
Chapter 4 Water Supply	Introduction and background
	Description of relevant policy and programmes (GO and NGOs)
	Short-term and long-term targets
	Result of previous findings
	BCHIMES result analysis and discussion
	Source of drinking water
	Water sufficiency in households
	Time spent in fetching water and average number of trips made
	Trips of water made by household members
	Average time taken and average number of trips made for water
	Water purification and protection methods
	Health status
	Epidemics of diarrhoea in the community
	Epidemics of dysentery in the community
	Epidemics of jaundice in the community
	Epidemics of typhoid in the community
	Epidemics of cholera in the community
	Policy implications and plan of action
	Summary and conclusion
Chapter 5 Sanitation	Introduction and background
	Description of relevant policy/programmes (GO and NGOs)
	Short-term and long-term targets
	Key indicators
	BCHIMES result analysis and discussion (1-13)
	Policy implications and plan of action
	Summary and conclusion
Chapter 6 Salt Iodisation	Introduction
	Use of iodised salt
	Type of salt used
	Iodine content by type of salt
	Summary and conclusion
Chapter 7 Family Planning	Introduction
	Heard of family planning
	Ever-use of contraception
	Current use of contraception
	Informed consent and sterilisation regret
	Summary and conclusion
Chapter 8 ANC Services	Introduction
	Coverage of ANC services and differentials
	Place of ANC service and ANC service provider
	Subjects discussed during ANC services
	Time taken to reach health institution
	Time of first ANC service
	TT shots during pregnancy
	Iron and Folic Acid
	Pregnancy-related Problems and help sought
	Tobacco and alcohol consumption during pregnancy
	Night blindness during last pregnancy
	Food intake during pregnancy
	Summary and conclusion
Chapter 9 Delivery and Post Natal Care	Introduction
	Place of delivery
	Persons assisting in delivery
	Whether Home Delivery Kit used
	Umbilical cord
	Size of baby at birth
	Postpartum check-up received
	Problems experienced during delivery
	Summary and conclusion
Chapter 10 Information, Education and Communication	Introduction
	Exposure of currently married women of reproductive age to print media
	Exposure to radio
	Exposure to television
	"Gharhi Hani Hani" Minut
	Summary and conclusion
Chapter 11 STD/HIV/AIDS	Introduction
	Knowledge of STD/AIDS
	Knowledge of HIV testing place and ever tested
	Knowledge of ways to avoid AIDS
	Perception about a healthy-looking person
	Chances of getting AIDS
	Methods of avoiding AIDS
	Source of information about sexually transmitted diseases
	Source of information about HIV/AIDS
	Summary and conclusion
Chapter 12 Breastfeeding	Breastfeeding practices
	Practices of colostrum feeding
	Duration of Breastfeeding
	Drinking water given to the children by age
	Baby food given to the children by age
	Exclusive breastfeeding, timely complementary feeding and continued feeding rates
	Extent of bottle-feeding
	Reason for not breastfeeding
	Willingness to continue breastfeeding
	Summary and conclusion
Chapter 13 Child Health	Acute Respiratory Infections
	Introduction
	Prevalence and treatment of acute respiratory infections
	Symptoms of ARI
	Diarrhoeal disease
	Introduction
	Prevalence and differentials
	Blood in the stool
	Treatment of diarrhoea
	Summary and conclusion
Chapter 14 Vitamin A	Introduction
	Awareness of the National Vitamin A Programme
	Vitamin A supplementation
	Practices related to vitamin A capsule distribution
	Summary and conclusion
Chapter 15 Immunisation	Introduction
	Immunisation coverage
	Trends in fully immunised children
	Knowledge related to vaccination
	National Polio Immunisation Day (NID) coverage
	Summary and conclusion
Chapter 16 Data Quality and Sample Characteristics	Introduction
	Sample coverage and fieldwork
	Data entry and analysis
	Response rates
	Children that completed children's questionnaire
	Percentage of children 6-15 years that completed the education module
	Age and sex distribution
	Missing cases for key variables
	Household and Respondent by background characteristics
APPENDICES	
Appendix - 1: Sample Design for BCHIMES
